Total Item Investigations - The total number of times a content item or information related to a content item was accessed.  
Total Item Requests - The total number of times the full text of a content item was downloaded or viewed.  
Article Request (NON-Counter) - The number of documents requested from the server.  
Page Views - The number of pages viewed on a Web site.  
Searches Run - Reports the number of keyword searches performed.  
Visits - Represents the number of individual durations of times visitors were on the site accessing a series of pages without 30 minutes of inactivity. A single visitor can account for multiple visits in a single day.
