

## SDG 11.4.6

# Pedestrian priority on campus

### Priorities pedestrian access on campus

In GMRIT campus the pedestrians are given priority (Fig. 1 to Fig. 5). Pedestrian lanes have been prioritized by proper sign boards in different areas inside campus to ensure students' and employees' safe passage. Speed limit of vehicles inside the campus has been limited 30 km per hour only and the institute is a no-horn place. Speed breakers are also built on the roads. Security personnel from the institute provide assistance to students and employees while crossing the streets to ensure safety while going to and from the institute. The traffic sign boards are placed at appropriate place for the safety of the pedestrians (Fig. 6 to Fig. 11).
