

Free Drinking Water Facilities provided

GMRIT provides complimentary drinking water to students, staff, and visitors. To maintain water purity, the institute has pioneered the use of reverse osmosis and ultraviolet treatment technologies. Regular water quality assessments are carried out to ensure compliance with the drinking water standards established by BIS. Presently, GMRIT offers UV-treated drinking water at 17 different locations, each with a capacity of 2550 liters per hour, and RO-treated drinking water at 15 locations, with a total capacity of 1785 liters per hour.
