

Green Policy

1. To maintain the eco-system of the campus and conservation of natural resources
2. To monitor and inspect human activities, taking different actions to prevent harmful effects on the environment and natural resources
3. To develop a plan to save energy (Solar Energy)
4. To Implement 5R's practices
5. To phase out the CFL and conventional light sources such as bulbs and tube lights, halogen and mercury street/campus lights for self-sustainability
6. Water flow restrictors on bathroom faucets and showers, low water flow toilets and automated urinal flushers should be used to cut down campus water use
7. Recycle and Reuse of sewage for Gardening purpose
8. Generation of biogas and fertilizers from kitchen waste (Hostel and Canteen)
9. To initiate all the efforts to involve the students and faculty in "Green Campus Initiatives" through SWACHH BHARAT ABHIYAN
10. To evaluate and minimize carbon emission in the campus
